

# CLIMATE DECLARATION

FOR NATRACARE REGULAR NATURAL ULTRA PAD WITH WINGS

Functional unit: One absorbent hygiene product

The climate declaration shows the emissions of greenhouse gases, expressed as CO<sub>2</sub>-equivalents. It is based on verified results from a lifecycle assessment (LCA) performed as basis for an EPD®, in accordance with ISO 14025.

## Product

The Natracare regular ultra pad with wings is a feminine hygiene product which is not chlorine bleached and is free of rayon, plastics and other similar synthetic materials. The regular ultra pad differs from others in the product range as it narrows towards the middle of the pad and contains wings for added protection. Each pad consists of a cotton top sheet, an acquisition and absorption layer made from TCF pulp and tissue, and a biofilm backing film. Glue is used to hold the pad together and attach the release paper. Individual pads are contained within a biofilm/tissue pouch. They are sold in packs of 14.

## Company

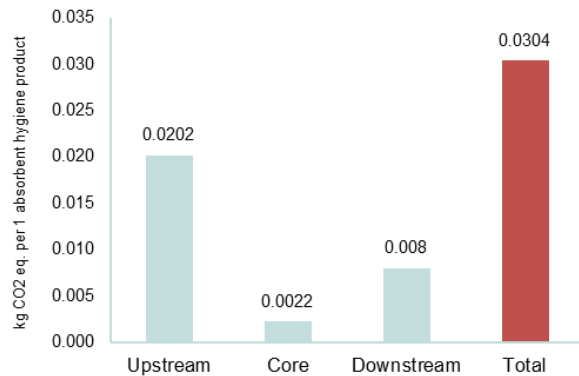

Natracare was created in 1989 by Susie Hewson, to develop a range of 100% cotton tampons and totally chlorine-free pads and panty liners. The full range of sanitary pads and panty liners are made from totally chlorine free, natural and sustainable materials. The range includes organic cotton tampons, wipes and natural pads, dry & light incontinence pads, new mother maternity and nursing pads and a range of organic baby toiletries such as shampoo and massage oil.

## Climate declaration

The LCA includes extraction and processing of raw materials, packaging production, Ultra pad components production, production & packing, use,

end of life treatment and transportation of materials from the component suppliers to the manufacturing facility, to the consumer and to the waste management site but excludes the transportation of raw materials to the suppliers.

The emission of greenhouses gases is shown in kg CO<sub>2</sub> equivalents below:
