

STOPDIGGING!

Climate declaration for StopDigging Ground Screws

EPD of Multiple Products

Based on the representative product SGC 76x865

Declared unit: 1kg of product

THE INTERNATIONAL EPD® SYSTEM

THINK GLOBALLY : ACT LOCALLY

The climate declaration shows the emissions of greenhouse gases, expressed as CO₂-equivalents. It is based on verified results from a lifecycle assessment (LCA) performed as basis for an EPD, in accordance with ISO 14025 and EN 15804.

Product

There's a ground screw for every project. Beam, post, adapter and pipe screws – there are six basic models of screws with different brackets, lengths and measurements depending on what is to be anchored, what the load requirements are and the ground conditions where the screws are to be installed. On top of this, there are a number of attachments for special installations. Where a concrete supporting block is needed, a screw can be installed in its place.

Other environmental information

This declaration is limited to one impact category. For information about other relevant environmental impacts, see the EPD available at www.epd-australasia.com

Climate Declaration

The graph below shows the Cradle to Grave (excluding use) footprint of the product, calculated as **kg CO₂-equivalent** (GWP, 100 years). Impacts from production and transport of raw materials as well as manufacture, distribution and installation, End of life stages and reuse potential are included.

Mandatory Statements

Exclusion of small amounts follow the rules of Product Category Rules of Construction Materials, and include the infrastructure, construction, production equipment and tools that are not directly consumed in the production process; and personnel related impacts. These are deemed negligible. Zinc spray repair was cut off from this assessment as its generally not required. The potential benefit or recycling the steel pallet packaging has not been considered.

The scenarios included are currently in use and are representative for one of the most likely scenarios alternatives.
