# 1 INTRODUCTION

## 1.1 GENERAL

This document constitutes complementary Product Category Rules (c-PCR) for developing Environmental Product Declarations (EPD) in the framework of the International EPD System: a programme for EPDs<sup>1</sup> according to ISO 14025, ISO 14040, ISO 14044, and product-specific standards, such as EN 15804, EN 15941 and ISO 21930 for construction products.<sup>2</sup> developed in the framework of the International EPD System: a programme for type III environmental declarations<sup>3</sup> according to ISO 14025:2006. EPDs are voluntary documents for a company or an industry association to present transparent, consistent, and verifiable information about the environmental performance of their products (goods or services).

The General Programme Instructions (GPI), publicly available on [www.environdec.com](http://www.environdec.com), includes the rules for the overall administration and operation of the programme and the basic rules for developing EPDs registered in the programme. A PCR complements the GPI and the normative standards by providing specific rules and guidelines for developing an EPD for one or more specific product categories (see Figure 1), thereby enabling the generation of consistent EPDs within a product category.

Figure 1 This c-PCR in relation to the hierarchy of standards and other documents.

The present c-PCR uses the following terminology:

- The term "shall" is used to indicate what is obligatory, i.e., a requirement.
- The term "should" is used to indicate a recommendation. Any deviation from a recommendation shall be justified in the EPD development process.
- The terms "may" or "can" are used to indicate an option that is permissible.

For definitions of other terms used in the document, see the GPI, normative standards, and PCR 2019:14 Construction products.

The latest version of the PCR is available on [www.environdec.com](http://www.environdec.com).

Any references to this PCR shall include the PCR registration number, name, and version number.

## 1.2 ROLE OF THIS DOCUMENT

This document provides complementary product category rules (c-PCR) to PCR 2019:14 Construction products, available on [www.environdec.com](http://www.environdec.com). This document cannot be used by itself but shall be used together with PCR 2019:14 and EN 15804. The document can be used together with any valid version of PCR 2019:14, regardless of the version of PCR 2019:14 referred to in this document.

1 Termed type III environmental declarations in ISO 14025.

2 When standards are referred to in this document, the version listed in Section 7 is intended unless otherwise stated.

3 Type III environmental declarations in the International EPD System are referred to as EPD, Environmental Product Declarations.

GYPSUM-BASED CONSTRUCTION PRODUCTS (EN 17328)

See Figure 2 for an illustration on how PCR 2019:14 and this c-PCR relates to each other and the EPDs that may be based on them.

Figure 2 Overview of using PCR 2019:14 directly to develop an EPD or how to use it together with a c-PCR.

GYPSUM-BASED CONSTRUCTION PRODUCTS (EN 17328)

## 2 GENERAL INFORMATION

### 2.1 ADMINISTRATIVE INFORMATION

Name:	Gypsum-based construction products
Registration number and version:	c-PCR-031, version 1.0.0
Programme:	 INTERNATIONAL EPD SYSTEM
Programme operator:	EPD International AB, Box 210 60, SE-100 31 Stockholm, Sweden Website: <a href="http://www.environdec.com">www.environdec.com</a> E-mail: <a href="mailto:support@.environdec.com">support@.environdec.com</a>
PCR Moderator:	Not applicable
PCR Committee:	Not applicable
Date of publication and last revision:	2025-04-24 (version 1.0.0) A version history is available in Section 8.
Valid until:	2030-04-07
Schedule for renewal:	If a new version of EN 17328 is released, an update of this c-PCR will be initiated.
Standards conformance:	<ul style="list-style-type: none"><li>▪ EN 17328:2024</li></ul> <p>For compliance to other documents, see PCR 2019:14.</p>
PCR language(s):	This PCR was developed and is available in English. In case of translated versions, the English version takes precedence in case of any discrepancies.

### 2.2 SCOPE

#### 2.2.1 PRODUCT CATEGORY DEFINITION AND DESCRIPTION

This document provides c-PCR for the assessment of the environmental performance of gypsum-based construction products and the declaration of this performance by an EPD according to EN 17328:2024.

The c-PCR covers all gypsum-based construction products. Based on the main difference between physical form and application, three product families can be defined: board products, powders products and cast products. See further in section 6.1 of the EN 17328:2024.

#### 2.2.2 TYPE OF EPD AND INFORMATION MODULES INCLUDED

As in PCR 2019:14 and EN 17328:2024.

GYPSUM-BASED CONSTRUCTION PRODUCTS (EN 17328)

### 2.2.3 GEOGRAPHICAL SCOPE

This c-PCR may be used globally.

### 2.2.4 EPD VALIDITY

As in PCR 2019:14.

GYPSUM-BASED CONSTRUCTION PRODUCTS (EN 17328)

### 3 PCR REVIEW AND BACKGROUND INFORMATION

This PCR was developed within CEN standardisation, and adopted as a c-PCR by the International EPD System. There was thus no additional open consultation period and no additional review in addition to those within standardisation.

## 4 GOAL AND SCOPE, LIFE CYCLE INVENTORY AND LIFE CYCLE IMPACT ASSESSMENT

As in PCR 2019:14 and EN 17328:2024.

GYPSUM-BASED CONSTRUCTION PRODUCTS (EN 17328)

## 5 CONTENT AND FORMAT OF EPD

As in PCR 2019:14 and EN 17328:2024.

## 6 LIST OF ABBREVIATIONS

As in PCR 2019:14 and EN 17328:2024.

## 8 VERSION HISTORY OF C-PCR

### VERSION 2024-08-06

Original version.

### VERSION 1.0.0, 2025-04-24

- Updated with prolonged validity in accordance with version 2.0.0 of PCR 2019:14.
- Changed from version date to version number.
- Other editorial changes and clarifications.
